

CHAPTER V

CONCLUSION AND SUGGESTIONS

This chapter presents the conclusions and the suggestions of the research.

A. CONCLUSION

It can be concluded that the application of jigsaw model learning and drilling technique. This ability is believed to be a quite helpful way for learning part of speech. The type of data presented in this study, namely qualitative descriptive data. In terms of qualitative data, the writers found the following results.

The main influence on students' abilities, interest, and talent in English is motivation. Many factors contribute to low ability and interest in English, including monotonous learning models that make students bored.

The writer conducted research at SMA Islam Ta'allumul Huda Bumiayu with the title "The Implementation of Combination Between Jigsaw Model and Drilling Technique in Teaching Part of Speech." This teaching model is expected to benefit students and enhance their interest in English lessons. The implementation aims to help students gain a deeper understanding of parts of speech.

The implementation of the jigsaw model and drilling technique showed positive results, including more varied and competitive learning. Students also appeared to be more familiar with one another. This supportive learning environment greatly contributes to their understanding of English material, particularly parts of speech.

B. SUGGESTIONS

1. For the students

Learning English can be challenging, but with the right attitude, you can experience satisfying progress. Try immersing yourself in English through activities you enjoy, such as watching movies, reading books, or speaking with friends in the language. Every time you practice, even if only a little, you are making significant strides toward fluency. Remember that every mistake is an opportunity to learn and grow. Stay consistent, give yourself praise for every small achievement, and don't hesitate to seek help or additional resources if needed. With effort and dedication, you will surely see significant improvement and feel more confident using English.

2. For teacher

It is very important for teachers to create an enjoyable learning atmosphere so that students feel comfortable and engaged in learning. Implementing the right learning models can help create a comfortable and enjoyable classroom environment. Every teacher should prepare themselves before entering the classroom, such as by preparing the media and learning models in advance. The application of the jigsaw model and drill techniques can help create an effective classroom environment, for example, in teaching parts of speech.

3. For future writers

For future writers, the results of this study can be used as additional references for different discussions. For the readers, the writer hopes that this research can provide some information and that this research will contribute

a little about the advantages of jigsaw model and drilling technique in teaching Part of speech.
