CHAPTER V

CONCLUSION AND SUGGESTIONS

This is the last chapter of this thesis. In this chapter, the writer presents the conclusion of analysis that the writer finds in the previous chapter and the writer presents the suggestions.

A. Conclusion

After identifying the function and form interface in the previous chapter, then the next step is drawing conclusion. Based on the findings and interpretation in previous chapter, there are 1.000 sentences on Crazy Rich Asian Movie (2018) that can be analyzed into function and form interface. The result of function and form the analysis is presented as follows: The Subject function can be realized by Noun Phrase form (1.146), Preposition Phrase form (1), Adverb Phrase form (1), Existential there form (14), Locative there form (1), Wh- Clause form (2), -ing participle Clause form (2), and Small Clause form (1). The Predicator function realizes by Verb Phrase form (1.278). The Indirect Object function realizes by Noun Phrase form (29). The Direct Object function can be realized by Noun Phrase form (305), Preposition Phrase form (12), Adverb Phrase form (4), Wh- Clause form (19), Subordinate Clause form (13), To infinitive Clause form (5), Bare infinitive Clause form (2), and-ing participle Clause form (1). The Adjunct function can be realized by Noun Phrase form (27), Preposition Phrase form (280), Adverb Phrase form (4), Verb Phrase form (2), That Clause form (5), Wh- Clause form (24), If Clause form

(5), So Clause form (4), Since Clause form (2), Until Clause form (1),
Subordinate clause form (61), To infinitive Clause form (59), -ing participle
Clause form (17), -ed participle Clause form (3), and Small Clause form (1).

B. Suggestions

Finally, the writer suggest that the readers can learn more about function
and form so they can understand both of them in details. Then the writer
suggests the next researchers or writers to use a different source of data and
different source of theory. The writer uses Aarts' theory to analyzes the script
movie as the source of data, so the next researcher or writer can use other
theories to analyze other kind of data.
